MADISON METROPOLITAN
SCHOOL DISTRICT

Huegel Elementary School is very proud of the strong community created by its families, staff, students and community members. We believe that every child can learn and grow, and we work hard to make sure that all students reach their full potential. Our talented teaching staff consistently collaborates to support students' learning through enriching academic opportunities, and also focuses on developing students' social-emotional character. Our Positive Behavior Support (PBS) program teaches students to be safe, respectful and responsible, and we celebrate our positive school community throughout the year with a variety of fun and engaging school-wide activities and events.

School Principal: Angie Montpas

Equity Vision

Our vision is to deconstruct implicit bias and reduce marginalization to cultivate the genius in all children to watch them soar.

Strengths

Along with the language arts, math, science and social studies curriculum, all students participate in arts, music, technology and physical education classes each week. Our new library media center features an engaging makerspace area, as well as thousands of books for students to check out. We are proud to be one of the first cohort of schools selected to integrate technology into our daily instruction with all students having individual devices.

Progress

During the 2016-17 school year our staff focused on implementing new technology into teaching and learning. Bringing heightened awareness to implicit bias and equity were also a focus this year. In our content & instructional practice we continued to focus on reading, specific to increasing students' ability to access increasing complex texts while also improving our practice in our guided and independent practice areas.

Area for Growth

Huegel will look at ways to more deeply integrate technology into guided and independent practice, teacher teaming and increasing two-way family communication. We want to return to our PBS structures and systems as a way of also ensuring equity.

Vision Connection

Our school supports MMSD's vision that all students acquire the skills and abilities needed to be successful, including a mastery of content areas, growth mindset, self-knowledge, creativity, wellness, interpersonal skills, confidence, cultural competence, and community connection. Through these skills and abilities, our students will graduate college, career, and community ready.
